

Quality Policy - Akra

Akra Polyester is committed to offering high quality polyester filaments and polymers in the national and international markets.

This commitment includes:

- The effective treatment of the risks and opportunities associated with our processes, products and the environment in which we operate.
- The fulfilment to the quality and product delivery requirements agreed with the client.
- The fulfilment to the legal requirements and other regulatory commitments voluntarily acquired.
- The continuous improvement of the QMS and its validation through indicators that allow monitoring the key processes for quality.
